

Hat Creek Livestock

Dear Friends,

We take great pride in offering quality beef at a reasonable price. If you have not taken the time to read some of the informative articles listed on our website regarding the benefits of buying natural grass fed beef versus feedlot beef, we highly recommend you take the time to do so. The quality of our grass fed beef is seen in the texture and taste.

The approximate finished live weights are 850 to 1000 lbs. and based on our current pasture and feed scenario we should be able to keep the total price down to approximately \$3.50 per pound which is based on hanging weight. Hanging weight is approximately 70% of the live weight, so a 1000 lb. live weight would hang at about 700 lbs. Based on this live weight scenario, if you wanted $\frac{1}{4}$ beef it would be approximately 175 lbs. ($\frac{1}{4}$ of 700) at approximately \$3.50 lb. (this includes all processing as well as cut and wrap fees).

With your completed order form we are collecting deposits of \$150 per quarter of beef which will reserve your beef order. All deposits are 100% refundable if we are unable to deliver due to “Acts of God or any Unforeseen Circumstances”.

In the near future we will be offering smaller packages as many of our customers have smaller families and therefore a quarter beef is too much to order all at once.

Please feel free to call or email with any questions.

Thanks,

Hat Creek Livestock
